## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

## DETAILED ACTION

### *Response to Amendment*

The Amendment, filed on August 12, 2002, has been entered and acknowledged by the Examiner.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by Riley et al. (US 4,195,892).

Regarding claim 12, Riley discloses a plasma display panel comprising a vacuum tube attachment where a glass frit to seal a vacuum tube to the panel is forced to flow into a tube panel junction using a glass washer over the vacuum tube (Column 3, lines 56-64).

### *Double Patenting*

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim 13 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 53 of U.S. Patent No. 6,452,332. Although the conflicting claims are not identical, they are not patentably distinct from each other because of the reasons stated below.

US Application SN 09/925,351	US Patent No. 6,452,332	Reasons for rejection under obviousness double patenting
Claim 13	Claim 53	Same subject matter. Patent '332 claims a curved-panel display comprising two glass plates enclosing two orthogonal fiber arrays, which serves to form a structure within the display.

Claim 13 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 18 of U.S. Patent No. 6,414,433. Although the conflicting claims are not identical, they are not patentably distinct from each other because of the reasons stated below.

US Application SN 09/925,351	US Patent No. 6,414,433	Reasons for rejection under obviousness double patenting
Claim 13	Claim 18	Same subject matter. Patent '433 claims a curved-panel display comprising two glass plates enclosing two orthogonal fiber arrays, which serves to form a structure within the display.

### ***Allowable Subject Matter***

Claims 1-11 are allowed.

Claim 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 1 and 14, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claims 1 and 13, and specifically comprising the limitation of two glass plates enclosing at least one array of fibers, which serves to form a structure within the display, where one of the two glass plates is larger than the other in all directions in a plane of the glass plates.

Regarding claims 2-11, claims 2-11 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

### ***Response to Arguments***

Applicant's arguments with respect to claims 12 and 13 have been considered but are moot in view of the new ground(s) of rejection.
